

# HOW MUCH COULD YOU SAVE?

## Save up to 30% on Your Electricity and Natural Gas Bills in 4 Efficient Steps

### 1. REGISTER ONLINE IN TWO MINUTES OR LESS.

With little more than your name and contact details, you can register for a reverse auction – and we'll take care of the rest.

Streamline the process of reviewing rates by having all suppliers bid and counter-bid against each other in real-time until the lowest rate possible is uncovered.

### 2. SCHEDULE YOUR REVERSE AUCTION.

You'll no longer have to review and compare varied proposals over days. Or spend countless resources trying to save money on electricity.

We'll accommodate any business' schedule and negotiate contract adjustments to suit the needs of your company.

### 3. WATCH ENERGY SUPPLIERS COMPETE IN AN ALL-OUT BIDDING WAR FOR YOUR BUSINESS.

Most EMEX™ Reverse Auctions take less than 10 minutes, start to finish. While energy suppliers sweat it out to win your business, you can simply watch, on your computer monitor or tablet, as the rates fall to below-market prices.

### 4. SIGN A NEW CONTRACT – OR DON'T.

EMEX Reverse Auctions are Performance Driven, meaning there is no obligation to sign at the end and **there is no cost to run the reverse auction.** With tremendous value achievements and savings of up to 30%, procurement opportunities through EMEX Reverse Auctions speak for themselves.
