To whom it may concern:

We 100% recommend SAV-ON's shipping audit and cost reduction services. We have been very pleased with the size of the shipping refunds, customer service and their detailed knowledge of the industry.

Over the years we have spent a lot of company time pursuing shipping billing errors with limited success. Last month we received \$1425 in refunds, had we relied on our previous internal auditing procedures (before SAV-ON), I calculated that we would have only identified about \$70 in refunds. SAV-ON procured 20 times (2000%) more refunds than we would on our own and it now takes zero company time addressing this issue!

To our surprise, we have found the online dashboard to be an excellent logistics tool as well. By outsourcing this task to SAV-ON we have saved valuable time and increased profits.

Sincerely,

Tatiana Boustani
